

CORPORATE PLAYERS USER GUIDE

A STEP-BY-STEP SYSTEM MANUAL FOR BOOKING, PLAYING, AND SESSION MANAGEMENT

SESSION LIFECYCLE WORKFLOW

1. ACCOUNT AUTHENTICATION & SECURITY

Accessing your corporate account is straightforward and uses unified credentials linked to your employment profile.

- **Login Options:** You can log in via the main page or specifically at the Corporate Login portal using your **Employee ID**, registered **Email**, or **Mobile Number** along with your password.
- **First-Time Sign In:** If you are logging in for the first time or after a password reset, the system will automatically prompt you to set a new, secure password. You must configure this before returning to the dashboard.

2. CREATING A CORPORATE BOOKING

Corporate players enjoy frictionless court booking. No personal checkout or payment processing is required, as all slots are automatically billed directly to your company.

- **Initiating Booking:** Click the **+ Create Booking** button on your dashboard.
- **Slot Configuration:** Select your **Game**, **Date**, and **Start Time**. If the game enforces fixed scheduling, choose from the predefined slots; otherwise, enter a custom start time.
- **Adding Colleagues:** Under the co-players section, search for coworkers by typing their name, Employee ID, or mobile. Select their profile to attach them to the booking slot. Remove them at any time using the **×** badge button.
- **Confirmation:** The bottom details panel displays the ending time and confirms '*No Payment Needed (Billed to Company)*'. Submit to complete the booking.

3. TRACKING PLAYTIME & ACTIVE SESSIONS

The company dashboard acts as your active session assistant while you are on-court.

- **Stopwatch Counter:** When your booked time begins, a prominent indigo card titled **Active Session Playing** displays a live running stopwatch showing exactly how long you have been playing.
- **Analytics & History:** The dashboard lists today's calendar entries, your total accumulative corporate playtime, and a log of your completed recent sessions.

4. ENDING YOUR SESSION & CHECKOUT (CRITICAL)

Important: Always end your session immediately when you finish playing to avoid overtime charges billed to your company account.

CHECKOUT METHODS:

1. **Dashboard Scanner:** Click 'Scan QR To End Session' on your phone's dashboard, scan the facility's Exit QR Code, and check out instantly.
2. **Manual Token Entry:** If camera access fails, type the alphanumeric security token directly into the manual verification input box on your dashboard.
3. **Facility Terminal:** Scan the facility checkout QR using any generic browser, select your active sessions, and confirm check-out.
